Student Satisfaction Survey is conducted every year to know about the students' perception about Teaching – Learning and Evaluation, which will help to upgrade the quality of process followed in our institution.

Students are randomly selected for the survey by system. Only that particular student who was chosen randomly will get the Questionnaire. The students will remain anonymous throughout the survey process.

In SSS there would be twenty-one questions all over and out of which, twenty questions would be objective type and one question provides opportunity for the students to give their observations / suggestions in a descriptive way to improve the overall teaching – learning experience in our institution.

The questionnaire covers a wide array of skills involved in the teaching process which vary from teaching skills of the teacher, technical knowledge, effectiveness of communication, preparedness, doubt clearing skills and use of ICT, to overall approach to the educational process like motivation, interpersonal relationships, feedback, dynamically modifying teaching methodology to help weak students etc.,
The Questionnaire is based on the likert scale on a graded marking system. The students' response is based on a scale 0 to 4. Highest positive response is rated as 4 and the lowest negative response is rated as 0. This removes the binary forced approach and provides a more comfortable wider range for students to register their opinion.

The email id of all the students in the institution currently pursuing the degree was acquired for all the UG and PG programme. This was around 5400 in number. Out of this entire set a subset of around 3000 students was chosen randomly by the system anonymously to maintain objectivity in the entire process. Questionnaire was sent in Google forms through the link https://forms.gle/XpXSZvBuV4cTbrXS8 to that mail ids selected randomly. This fetched response from 1286 students was recorded and performances of stakeholders were analyzed with regards to the feedback provided.

End analysis of the survey is done using software which will aggregate the response and generate the score of student satisfaction survey. A robust mechanism is followed by this software so as to follow a holistic unambiguous approach towards quantifying the student feedback in a comprehensively inferable manner.

Inference from the feedback is analyzed thoroughly by the appellate authorities and corrective measures are implemented.

Guidelines for Students

St.Joseph's College of Engineering is conducting a Student Satisfaction Survey regarding Teaching – Learning and Evaluation, which will help to upgrade the quality in higher education. A student will have to respond to all the questions given in the following format with her/his sincere effort and thought. Her/his identity will not be revealed.

A) Please confirm this is the first and only time you answer this survey.

    a) Yes ☐   b) No ☐

B) Age: C) College Name:

D) Gender: a) Female ☐ b) Male ☐   c) Transgender ☐

E) What degree program are you pursuing now?
     a) Bachelor's ☐ b) Master's ☐   c) MPhil ☐
     d) Doctorate ☐ e) Other (   )

F) What subject area are you currently pursuing?
     a) Arts ☐   b) Commerce ☐   c) Science ☐
     d) Professional ☐   e) Other: (   )

Instructions to fill the questionnaire
- All questions should be compulsorily attempted.
- Each question has five responses, choose the most appropriate one.
- The response to the qualitative question no. 21 is student's opportunity to give suggestions or improvements; she/he can also mention weaknesses of the institute here. (Kindly restrict your response to teaching learning process only)
