OCTOBER 2024

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

S.No.	Title of the Events and Photographs	Details of the Event
1.	STUDENT ACHIEVEMENTS/COMPETITION ATTENDED BY STUDENTS	A Team of Third Year Students from the Department of Artificial Intelligence and Data Science and Second Year Student from the Department of Master of Business Administration have won the First Prize with cash reward of Rs. 10000 in Internal Software Hackathon - Innothon '24.

Team Name: Billiance Team Members:

Ms. Hamsa Vardhini - III ADS, Mr. Jude Allen -III ADS,

Ms. Dharunika - III ADS,

Mr. Vaikunda Mani - II Year MBA Integrated.

Mentors:

Dr.R Pugalenth, Professor and Head (ADS),

Dr.K.Jawahar Rani, Professor (MBA).

Problem Statement: AI Powered Shoplift Detection and Alert System.

2.

MyGov Campus Ambassadors

Our Third Year Students Ms. Mahatishri J and Mr. Adhitya S have been chosen as Campus Ambassadors for the MyGov Campus Ambassador Program.

Oracle Certified Foundation AI Associate

Our Second Year student Mr. Keshav Srinivas M, has become an Oracle Certified Foundation AI Associate.

Microsoft Azure Certified

Ms Jeevitha M, Ms Sharmila L, Ms. Jenina Angelin D, Ms. Kasey Ann Britto, Mr. Dhanush Kumar R, Mr. Harisudhan S, Ms. Varnikaa D T, Ms. Atchaya S, Mr. Vishal G B and Mr. Dhaksin S, Final and Third Year Students from the Department of Artificial Intelligence and Data Science have successfully passed all requirements for Microsoft Certified: Azure AI Fundamentals

Dhanushkumar R, a Microsoft Learn Student Ambassador from the Artificial Intelligence and Data Science department, recently served as a guest speaker at a Azure Community event in Microsoft Campus, Chennai.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Sl. No.	Event with Photo	Description
1	Expert Talk - "AI Powered future: How Microsoft Applied Skills can shape your career path"	<p>Date: 5-10-2024</p> <p>Venue: Virtual</p> <p>Nature of Event: Expert Talk</p> <p>Participants: II CSE STUDENTS</p> <p>Organized by: Department of CSE</p> <p>Objective:</p> <ul style="list-style-type: none"> • To disseminate specialized information or insights on a specific topic. • To motivate and inspire the audience through personal experiences and success stories. • To foster interaction and discussion among participants, encouraging questions and dialogue. • To provide practical tips and strategies that attendees can apply in their own contexts.
		<p>Outcome:</p> <ul style="list-style-type: none"> • Attendees gain a deeper understanding of the topic discussed, including new concepts and trends. • Participants may leave with practical tools and techniques that they can apply in their own work or studies. • Connections are made between the expert and attendees, as well as among participants, fostering collaboration and future discussions. • Attendees often feel inspired by the expert's experiences and insights, encouraging them to pursue their own goals.

2	Alumni talk - "Mr.Hemachandran S.N" from batch 2010-2014	
		<p>Date: 10-6-2024</p> <p>Venue: Virtual</p> <p>Nature of Event: Alumni talk</p> <p>Participant: IV-year Students</p> <p>Organized by: Department of CSE</p> <p>Objective:</p> <ul style="list-style-type: none"> • Alumni talks often aim to provide current students with valuable insights into various career paths, industries, and professional experiences. • Alumni may share their career journeys, lessons learned and advice for navigating the job market. • Alumni talks can facilitate networking opportunities between current students and alumni. <p>Outcome:</p> <ul style="list-style-type: none"> • Alumni talks create opportunities for attendees to connect with alumni who may serve as valuable mentors, advisors, or contacts in their desired field. • Building relationships with alumni can lead to internships, job opportunities, and professional connections that can benefit attendees throughout their careers.

3	CAREER DEVELOPMENT TRAINING – II YEARS	
		<p>Date: Model 2 examination</p> <p>Venue: CSE LAB</p> <p>Nature of Event: Career development Training</p> <p>Participant: II-year Students</p> <p>Organized by: Department of CSE</p> <p>Objective:</p> <ul style="list-style-type: none"> • To equip participants with specific skills relevant to their desired career paths, enhancing their employability. • To provide insights into industry trends, standards, and expectations, helping participants understand the job market better. • To foster personal development, including soft skills like communication, teamwork, and leadership. • To assist individuals in identifying career goals and developing a roadmap to achieve them. <p>Outcome:</p> <ul style="list-style-type: none"> • Participants become more attractive to employers by acquiring relevant skills and knowledge. • Individuals gain proficiency in specific technical or soft skills, making them more competent in their roles. • Training often boosts participants' confidence in their abilities, which can improve their performance in job interviews and workplace settings. • Many individuals experience improved job prospects, promotions, or transitions to more fulfilling career paths as a result of their training.

4	CAREER GUIDANCE MEETING - III YEAR	
		<p>Date: 14-10-2024</p> <p>Venue: CSE LAB</p> <p>Nature of Event: Career Guidance Meeting</p> <p>Participant: III-year Students</p> <p>Organized by: Department of CSE</p> <p>Objective:</p> <ul style="list-style-type: none"> • To help individuals assess their skills, interests, values, and personality traits, facilitating greater self-awareness. • To provide information about various career paths, industries, and job roles that align with the individual's profile. • To assist participants in defining short-term and long-term career goals, creating a clear direction for their professional journey. • To evaluate current skills and identify areas for development, ensuring participants are equipped for their desired careers. <p>Outcome:</p> <ul style="list-style-type: none"> • Participants gain a better understanding of their interests, strengths, and values, helping them identify suitable career paths. • Individuals receive information about various careers, job markets, and educational opportunities, enabling them to make informed choices. • Attendees often leave with clear, achievable career goals and a roadmap for how to reach them. • Participants can identify skills they need to develop or enhance for their desired career, leading to targeted training or education.

Sl No	Name of the Activity	Remarks
1	<p>Student Chapter Activities:</p>  	<p>The Standards Club of St. Joseph's College of Engineering's BIS Club Mentor, Mr. KMB. Karthikeyan, oversaw the event. Mr. K. Gnanasekaran, the mentor, gave the students instructions to the students for the planned technical.</p> <p>The valedictory function was presided over by Mr G. Saravanan BE MBA M.Sc. (PMV) FIE FIV FIPE C Engg(I), Chief General Manager, ITCOT Limited, a Joint Venture of IFCI, SIPCOT, TIIC, SIDCO Banks.</p>

2		<p>Department of Mechanical engineering organized a technical Event sponsored by Bureau of Indian Standard(BIS). A Govt of India Initiative on 14th October 2024, four event were conducted and four positions were felicitated with cash prizes. The event was inaugurated by Dr. N. Arunkumar, Dean of IC&IQAC, andDr. L. Balamurugan,Head of the Mechanical Department.</p>
3		<p>Department of Mechanical Engineering & Indian institute of Welding (IIW) Jointly organized a Inter chapter Technical Fest & Competition 2024 on 21st October 2024. Dr. V. Balasubramanian, Director, CEMAJOR, Annamalai University, Chairman IIW Chennai Chapter, Felicitated the program and quiz and technical presentation was conducted and nearly 60 students participated in the event and first three positions were felicitated with certificate and cash prize sponsored by Meera Laser Solutions.</p>

4

Department of Mechanical Engineering, Organized a Workshop on 09th October 2024 in the topic Drone Design, Development and Assembly in partnering with Deca Drives Pvt Ltd. This comprehensive program aimed to bridge the gap between theoretical knowledge and practical application, providing students with hands-on experience in drone technology. A total of 50 Students from Second, third and Final year students got benefited using this program

On 17th October 2024, Department of Mechanical Engineering, Organized a career guidance meeting for third-year students with their parents.

During the meeting the progress and steps to be taken to enhance the individual students discussed.

6		<p>Mr. M. Ganesh, Assistant Professor from Department of Mechanical Engineering, Completed his Viva Voce on 21st October 2024 and received his degree on 27/10/2024 on the topic “ Investigation on Deep Hole Drilling under Cryogenic Cooling Environment” Under the Guidance of Dr. N.Arunkumar.</p>
7	<p>Faculty Acheivements:</p>	<ul style="list-style-type: none"> ➤ Dr. N. Arunkumar, Professor & Dean, Mr. M. Ganesh & Mr. M. Siva, Assistant Professors, Dr. G.M. Lionus Leo, Associate Professor from the Department of Mechanical Engineering Published an article titled “ Experimental investigation on sustainable machining of Monel using vegetable oils as cutting fluids and machine learning-based surface roughness prediction” in "Engineering Research Express". ➤ Mr. G. Ashwin Prabhu, Assistant Professor from the Department of Mechanical Engineering has Successfully Published a Patent titled "Experimental Investigation of Mechanical Properties of Sisal and Jute Fiber Reinforced 202441071443 Composites" on 04/10/2024. ➤ Mr.J.Vijayanand & Mr. G. Ashwin Prabhu, Assistant Professor from the Department of Mechanical Engineering has Successfully Published a Patent titled "Experimental Investigation of Tamarind Seed Powder and Glass Fiber Reinforced Composites" on 04/10/2024. Application No: 202441070196

		<ul style="list-style-type: none"> ➤ Mr. T. Balasubramanian, Assistant Professor from Mechanical Department Secured Elite Silver Certificate in Product Design and Development in Association with IIT Roorkee. ➤ Mr. K. Pravinkumar, Assistant Professor from Mechanical Department secured Elite certificate in the Welding Application Technology in NPTEL exam in association with IIT Guwahati. ➤ Mr.K.Gnanasekaran, Assistant Professor from the Department of Mechanical Engineering Published a Text Book titled "Renewable Energy Systems " in Quill Tech Publication, ISBN 978-93-6786-963-5 • ➤ K. Gnanasekaran, Assistant Professor from the Department of Mechanical Engineering published a patent titled “Design and fabrication on bench test of electric two wheeler” . Application Number .Application no: 202441071428 • ➤ K. Gnanasekaran, Assistant Professor from the Department of Mechanical Engineering published a blade grass cutter” patent titled “Solar powered three Application Number .202441071427 ➤ Mr. K. M. B . Karthikeyan and Mr. K. Gnanasekaran, Assistant Professor, Department of Mechanical Engineering received a grant fund of Rs. 60,000/- for conducting technical events in Bureau of indian standards BIS (Students professional activities)
--	--	---

		<ul style="list-style-type: none"> ➤ Mr. G. Ashwin Prabhu, Assistant Professor from the Department of Mechanical Engineering Published an article titled "Advanced Robotics in Manufacturing: Engineering Innovations and Management Implications" in Scopus Indexed Journal "Nanotechnology Perceptions" Vol.20, S11 (2024) 633- 646 (ISSN 1660-6795) on September 14, 2024. ➤ Mr. G. Ashwin Prabhu, Assistant Professor from the Department of Mechanical Engineering Published a Text Book titled "Strength of Materials" in Alpha International Publication, ISBN 978-93-5762-775-7. ➤ Dr. M. Arun & Mr. G. Ashwin Prabhu, Assistant Professor from the Department of Mechanical Engineering has Successfully Published a Patent titled "Enhancing Polymer Composites with Recycled Jute Fibers from Carpet Waste: Transforming Jute Fibers into High Performance Natural Fiber Composites" on 18/10/2024.Application No: 202441075589 ➤ Mr. G. Ashwin Prabhu, Assistant Professor from the Department of Mechanical Engineering has presented paper entitled "A Fusion of SVR and Fully Connected Networks for Improved RUL Prediction of Lithium Ion Batteries" in 2024, 2nd Global Conference on Information Technologies and Communications (GCITC) during 25th and 26th of October 2024
--	--	--

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Events conducted:

The following events have been conducted during October 2024 at College Level

1. Alumni Activities	Report
A) Mock Interview	
 <p>The poster for the Mock Interview event features the Valeo logo at the top center. Below it are three circular portraits of the guest engineers: Mohanram Chandrasekaran, Vignesh R, and Vijay Ananth. Each portrait is accompanied by a nameplate identifying them as Design Engineer, Senior Engineer, and Engineer respectively, all from Valeo India Private Limited. At the bottom, the venue is listed as Placement Block, Interview Panel, the date as 05/10/2024, and the time as 01:00 PM - 03:00 PM. It also mentions that the participants are third-year students.</p>	<p>The ECE Department of St. Joseph's College of Engineering organized a Mock Interview session on 5th October 2024, aimed at preparing 3rd-year ECE students for their upcoming placements. The event was organized by the ECE Placement Cell and took place at the Placement Block from 01:00 PM to 4:30 PM. The primary objective of this event was to provide students with an opportunity to experience a real-time interview scenario, gain valuable insights, and prepare for future placement opportunities.</p>

	
2. Placement Activities	
A) 5G Technology -Technical Session by NOKIA	Report

Technical Session was hosted by ECE department to 5G students session handled by Mr.Veera and Poonam from Nokia. The workshop provided an overview of 5G and Multi-access Edge Computing (MEC) technologies. It discussed the shift from monolithic implementations to virtualized systems, highlighting the role of hypervisors and virtualization in optimizing resource utilization. The workshop also explored the benefits of MEC in reducing latency for real-time applications.

II YEAR STUDENTS

A six-day placement training program was conducted in ECE Department from 21st to 26th October 2024 by Retech Techno Solutions and Learning Saga LLP for 121 second-year ECE students with a CGPA of 7.5 and above. The program aimed to enhance students' technical skills in hardware and software domains. Hardware training focused on PCB design and IoT fundamentals, while software training covered C programming and data structures. This comprehensive training equipped students with practical skills, problem-

solving abilities, and industry-relevant knowledge, preparing them for academic and professional challenges.

Third and final-year ECE students at recently underwent intensive training in UI/UX design, RDBMS & SQL, and ReactJS, conducted by Syasan's Career Analytics Technology Solutions. This initiative aims to equip students with essential software skills, making them more competitive in today's tech-driven job market. As the demand for user-centric and data-driven solutions grows, these skills are becoming increasingly important for ECE engineers. By mastering UI/UX, RDBMS & SQL, and ReactJS, students can contribute to the development

	of innovative IoT devices, smart electronics, and web applications.

On October 4, 2024, held a SEERA session focused on enhancing students' professional and technical skills for improved employability. The program included insightful sessions on data-driven career navigation, personal branding, networking, and leveraging emotional intelligence for career growth. Students explored the value of higher education in aligning with industry trends, learned effective strategies for placement preparation, and gained practical insights into building personalized resumes, optimizing LinkedIn profiles, and mastering interview techniques. Technical sessions covered core concepts in "Signals and Systems," emphasizing their importance for technical roles, along with Skill Rack

	<p>exercises to improve coding skills in C, Python, and Java. The event empowered students with key industry competencies, highlighted pathways for further education, and provided a structured approach to career advancement.</p>
4. Seminar Organised	Report
	 <p>The seminar "Innovate with Intelligence: The Rise of Generative AI and its Future Scope" was hosted by the Department of Electronics & Communication Engineering, featured Samuel Tensingh from the University of Sydney, who discussed the potential of generative AI, particularly in the context of VLSI and semiconductors.</p>
5. Workshop Organised	

a) CAREER COMPASS	Report
	 <p>A two-day workshop was conducted by ECE department on October 9th and 10th, 2024, to equip third and final-year students with essential career skills. Day one focused on resume building, where students learned how to craft professional resumes that stand out to potential employers. Expert guidance from Mrs. Nithya Priya and Mr. Gokula Krishnan helped students understand key components of effective resumes, including structure, content, and formatting. On day two, a mock interview session provided students with a realistic experience of job interviews. Industry professionals conducted one-on-one interviews, offering valuable feedback on communication, problem-solving, and overall performance.</p>
6. AICTE Sponsored ATAL	

Unlocking the Potential of AI: Journey from Transformer Models to Gen AI, Applications from Industry to Space , and the Evolving Threat Landscape	Report

The Department of Electronics and Communication Engineering hosted a two-week AICTE Sponsored ATAL Advanced Faculty Development Programme on "Unlocking the Potential of AI: Journey from Transformer Models to Gen AI, Applications from Industry to Space, and the Evolving Threat Landscape." The programme delved into the latest advancements in Artificial Intelligence, focusing on transformer models and generative AI, while exploring their broad applications across various industries, including space, and addressing the emerging AI-driven threat landscape. Esteemed chief guests, Dr. P. Vanaja Ranjan, Director of the Centre for Faculty Development and Professor in the Dept of EEE at Anna University, along with Dr. Vandita Srivastava, Scientist SG, Head of the Dept of Geo Informatics at ISRO, IIRS, Dehradun, Uttarakhand, led the event on 14th October 2024.

7)NEXTRONIX' 24	Report

Department of Electronics and communication has recently hosted a 24- hour Internal Hardware Hackathon, Nextronix'24, on October 18th and 19th, 2024. This event was a platform for students from all years of St. Joseph's Group of Institutions to showcase their innovative hardware projects, fostering experiential learning and leadership development. Forty teams from various departments participated, competing for a cash prize of Rs. 20,000. The hackathon aimed to inspire students to address real-world challenges and gain valuable practical experience, ultimately boosting their confidence and preparing them for future endeavors. By providing an opportunity to apply their classroom knowledge

to real-world problems, the event encouraged creativity, teamwork, and problem-solving skills among the participants.

8) NPTEL Achievers:

- Mrs. G. Anitha have achieved an ELITE position in the NPTEL Python for Data Science course
- GD Vignesh has successfully completed 4 weeks NPTEL course on Basics of SDR and its Applications.
- Mrs. M. Angelin Ponrani have achieved an ELITE position in the NPTEL Python for Data Science course

9) Patent Published

The following faculty members have published patent during the month of October 2024.

S. No.	Country and Application No.	Name of the Applicants	Name of the Patentee	Patent Title	Date of Filing	Date of Publication	Date of Grant
1.	20244107560 3 A	R.Madhumitha	R.Madhumitha	Wearable IOT Bands for stress regulation with Adaptive machine learning techniques	07/10/2024	18/10/2024	-

6. Mentor Meeting

Mentor meeting was organized by the Department of Electrical and Electronics Engineering, St. Joseph's College of Engineering for all the second, third and final year EEE students on **October 18, 2024**. Students were encouraged to perform well in Model exam and End semester lab exams. They were motivated to focus on enhancing core, technical and soft skills to prepare for multidisciplinary challenges in engineering.

9.

IEEE activities

On **7th October 2024**, the IEEE St. Joseph's College of Engineering Student Branch Chapter (SBC60101) hosted the **Happy Volunteering** event in celebration of IEEE Day 2024. This event was held to honor and recognize the unwavering dedication of the student branch's volunteers, who have significantly contributed to the success of various IEEE initiatives throughout the year.

During the event, over 280+ volunteers were awarded Certificates of Appreciation for their outstanding service and commitment to the IEEE student branch activities. The event served as a heartfelt expression of gratitude to all those who generously gave their time, energy, and skills to help organize and manage IEEE events, workshops, and seminars.

The program emphasized the importance of volunteering and the impact it has on both the individual and the community.

10.

IEEE activities

On 10th October 2024, the IEEE SJCE Student Branch Chapter **celebrated IEEE Day 2024** with a cake-cutting ceremony, attended by nearly 60 students. The event brought together both new and existing members to commemorate IEEE's legacy and achievements. During the celebration, the history and accomplishments of IEEE SJCE SBC were introduced to the newly joined members, inspiring them to actively participate.

PIC: EVENT PHOTO

11.

IEEE activities

On **15th October 2024**, the IEEE SJCE Student Branch Chapter celebrated IEEE Day 2024 with great enthusiasm, participating actively in the **IEEE Day Photo Contest** across categories like Technovathion, Social Category, and Raise Your Flag. All members participated eagerly in the contest, showcasing their creativity and passion. Additionally, more than 100 students benefited from various events such as a poster competition, a Tech Trivia Quiz, a volunteering appreciation program, workshops, and expert talks featuring IEEE alumni, fostering a strong sense of unity and learning within the IEEE community.

IEEE activities

On IEEE Day 2024, the IEEE St. Joseph's College of Engineering Student Branch Chapter (SBC60101) successfully hosted the Cover to Cover (IEEE Spectrum Reading) event on 5th October 2024. The event featured a detailed discussion on the topic "India Backs Small Nuclear Reactors to Power Heavy Industry" presented by Ashwini D, a second-year EEE student.

The session explored the growing potential of small nuclear reactors in India's energy landscape, with a focus on their application in powering heavy industry. Ashwini provided in-depth insights into how this technology can promote energy efficiency and sustainability, sparking engaging discussions among attendees about the future of nuclear energy in industrial applications.

On IEEE Day 2024, the IEEE St. Joseph's College of Engineering Student Branch Chapter (SBC60101) successfully hosted the Cover to Cover (IEEE Spectrum Reading) event on 12th October 2024. The event featured an engaging talk by Arjun P, a second-year EEE student, on the topic "The Incredible Story Behind the First Transistor Radio" Arjun delved into the fascinating history of how the first transistor radio revolutionized the electronics industry. He explained the pivotal role that this invention played in shaping modern communication, highlighting key breakthroughs and the contributions of notable engineers.

The presentation sparked thought-provoking discussions among attendees, as Arjun illustrated how the development of the transistor radio laid the foundation for many of today's portable electronic devices.

Department of EEE organized an online event on 21st October 2024 at 7pm for higher studies guidance through Alumnus of 2018-2022 batch, Mr. Sharan R, B.E., (MBA), IIM Nagpur.

The event was organized for students who are preparing for and aspiring to join a management course after graduation. Participants included second, third, and fourth-year students from the Electrical and Electronics Engineering department. The speaker achieved a percentile score of 78.80 in CAT 2023 and is now pursuing an MBA at IIM-Nagpur. During the webinar, he offered valuable insights on CAT exam preparation and explained the application process. He also covered the different sections of the CAT exam and their respective weightages, and provided information about various IIMs in India and their selection process. Attendees had the opportunity to clarify their doubts

		regarding the CAT exam and also about the best B schools in India to join for management course.

Traditional methods in optical networking face challenges such as static resource allocation, limited adaptability, inefficient power usage, environmental insensitivity, and scalability issues. Therefore this article proposed a novel method named Dynamic Quality of Service based Random update Genghis Khan (DQ-RGK) algorithm, the proposed model can tackle the abovementioned complexities. In this study, cluster head dynamic placement is utilized to optimize the network's performance by adapting the placement of cluster heads to the current topology, load distribution, and energy levels in the network nodes. By dynamically assigning and reallocating resources based on the current demand the algorithm enhances overall network efficiency and reduces energy consumption. Then, this work analyzes the experimental results, where some evaluation measures estimate the DQ-RGK method's performance. Routing efficiency, latency, scalability, spectral efficiency, Packet Delivery Ratio, throughput, network lifetime, energy consumption, jitter, and energy consumption are the measures employed by the DQ-RGK model. In The results, other routing models that do not provide efficiency are utilized, a comparison of these other routing models is represented in results. The overall DQ-RGK model's effectiveness is represented in the experimental results and its effectiveness is greater among other methods.</p>

Funded Projects	
Other activities	Dr. P. Agilan published a book “Linear Algebra: Theory and Applications”, RK Publications

DEPARTMENT OF MBA

FACULTY PUBLICATION / REVIEW:

Dr.K.Sampath has published a paper titled “ Enhancing Team Productivity with Synergistic Work Patterns using Genetic Algorithms” in 2024 International Conference on Intelligent Cyber Physical Systems and Internet of Things (ICoICI 2024), ISBN: 979-8-3503-7281-6, <https://doi.org/10.1109/ICoICI62503.2024.10696457>

Dr.K.Sampath has published a patent titled “implementation of machine learning approaches for supply chain optimization through hr predictive analytics in e-commerce” on 04.10.2024

FDP / STTP/ WORKSHOP ATTENDED:

Dr. Bharath vajan presented a paper in 3rd International Conference on optimization techniques in the field of engineering at KSR College of Engineering, Namakkal during 22 & 23 October 2024.

Dr.A. Ajit participated in One week STTP on Hands on AI tools for Academic writing: Elevate your Research and publishing impact from 21-26 Oct, 2024.

INDUSRIAL VISITS:

The department of Management studies organized a one-day Industrial Visit to “Aavin Milk Factory” on 28.10.2024 for the I year MBA-A & B students. Our visit included a detailed explanation of the milk collection and processing procedures. We learned about the meticulous separation of milk based on fat content to produce various milk variants. The total numbers of students were 111 accompanied by 4 professors.

GUEST LECTURE GIVEN:

Dr.L. Rajeshkumar has given Seminar on Essential key skills and strategies for success in leadership Interviews on 25.10.2024 at Saveetha Engineering College, Chennai

ONLINE COURSE COMPLETION:

Dr. Sampath k has completed the NPTEL Course on Customer Relationship Management and HR Analytics.

DEPARTMENT OF SCIENCE

Sl. No.	Events	Remarks
4	FDP/Workshop/Conference	<p>NPTEL FDP</p> <ol style="list-style-type: none"> 1. Dr. S. Suresh completed three months NPTEL course / FDP on the title of “Concepts in Magnetism and Superconductivity” conducted by IIT , Koragpur, during the period of August-October 2024. <p>FDP / workshops attended:</p> <ol style="list-style-type: none"> 1. Dr. S. Suresh attended a National level workshop on “ChatGPT & AI in Microsoft Office” conducted by “Skill Nation, Online Platform”, on 16-10-2024. 2. Dr. K. Dhanaraj attended one week national level Faculty Development program on “Generative AI and Advanced Tool for academic Research” conducted by “Scrollwell online platform” held between 23.09.24 to 29.09.24. (Certificate received on the month of October)
5	Symposium	-
6	STTP	<ol style="list-style-type: none"> 1. Dr. V.N. Nandini Devi, Dr. P. Saravanan, Dr. S. Kiruba, Dr. N. Punitha, Dr. S. Suresh, Dr. A. Arulmozhi, Dr. A. Mahalakshmi, Dr. S. Manikandan, Mr. S. Kaleel Mohamed Ibrahim, Dr. P. Krishnan, Dr. S. Rama, Dr. K. Sathesh Kumar, Dr. G. Senthil Kumar, Dr. K.Dhanaraj, Dr. G. Murugan, Dr. V. Swarnalatha, Dr. A. Uma Devi, Dr. N.R. Rajagopalan, Dr. J. Sharmila, Ms. S. Savitha, Dr. K. Jayamoorthy, Dr. B. Subash, Dr. S.M. Prakash, Dr. C. Chandra Sathish, Dr. A. Dhivya attended six days online Short Term Training Programme on “Hands-On AI Tools for Academic Writing: Elevate Your Research and Publishing” conducted by “The Department of Science, St. Joseph’s College of Engineering during 21-10-2024 to 26-10-2024
7	Value added Courses/Courses other than VAC	-
8	Competitions attended by students	-
9	Awards/Prize won by students / Staff	<ol style="list-style-type: none"> 1. Mr. B. Hariharan of I year ADS-B has won II prize in the “Hunt the Bug” event at “National level Symposium” conducted by “Jeppiaar University, Chennai” on 25-10-2024.

10	Industrial Projects done by students	-
11	Publications(only published) details	Journal Publications: <ol style="list-style-type: none"> 1. Dr. P. Saravanan published an article titled “Time-Dependent Hydrothermal Synthesis of La₂O₃ NPs for Effective Catalytic Activity of Ionic Dye ” in the journal of “Luminescence: the Journal of Biological and Chemical Luminescence”, 39 (2024) e4915 {doi: https://doi.org/10.1002/bio.4915} 2. Dr. P. Saravanan published an article titled “Synthesis of Aluminum Oxide (Al₂O₃) Nanoparticles Decorated With Polymeric Carbon (Al₂O₃/AC) Nanocomposites for High Specific Capacitance Value” in the journal of “Polymers for Advanced Technologies”, (2024) {doi: https://doi.org/10.1002/pat.6604 } 3. Dr. P. Saravanan published an article titled “Sequential Detection of Hg²⁺ and TNT Using a Nitrogen-Doped Polymeric Carbon Dots On–Off–On Fluorescence Sensor” in the journal of “Polymers for Advanced Technologies”, (2024) {doi: https://doi.org/10.1002/pat.6604 } 4. Dr. V. Swarnalatha published an article titled “Synthesis and studies of manganese mercury thiocyanate glycol mono-methyl ether crystals for structural, electronic, dielectric, sensor and piezoelectric functionalities by theory and practice” in the “Journal of Material Science: Material Electronics” Vol.35, (2024) 1777, { https://doi.org/10.1007/s10854-024-13534-z } 5. Dr. V. Swarnalatha published an article titled “Synthesis, Studies of HDTDHP-μ Crystals from Arundina graminifolia Specimen for Electronic, Photonic, Optical and Electrical Use Correlated with Macro-Crystals for Sensor and Display Uses” in the “ECS Journal of Solid State Science and Technology” Vol.13, (2024) 097005, {DOI: 10.1149/2162-8777/ad7beb } 6. Dr. V. Swarnalatha published an article titled “Growth, Characterizations of Aspartame-ASP Crystals for Mechano, Spectral, Photonic, Opto-Electronic and Sensor Applications” in the “ECS Journal of Solid State Science and Technology” Vol.13, (2024) 094004, {DOI: 10.1149/2162-8777/ad7b71 } 7. Dr. S.M. Prakash published an article titled “Microwave assisted synthesis, spectral characterization of novel [N-methyl-3t-alkyl-2r,6c-diarylpiperidin-4-ylidene]-5',5'-dimethylthiazolidine-4-ones for antimicrobial and antimycobacterial activities:

		<p>Docking investigation” in the “Journal of Molecular Structure” Vol.1322, (2024) 140464 {DOI: https://doi.org/10.1016/j.molstruc.2024.140464}</p> <p>8. Dr. K. Dhanaraj published an article titled “Antibacterial and Cell-Viability of Hydroxyapatite Derived from Waste Marine Shell for Biomedical Applications” in the “Asian Journal of Chemistry” Vol.36, (2024) {DOI: https://doi.org/10.14233/ajchem.2024.32287}</p> <p>Book Chapters</p> <ol style="list-style-type: none"> 1. Dr. N.R. Rajagopalan published a book chapter titled “Enhancing food quality monitoring process through innovative micro-controller based systems” in the book “Edible Electronics for Smart Technology Solutions” – IGI global publishers(2024) {DOI: 10.4018/979-8-3693-5573-2.ch003} 2. Dr. J. Sharmila published a book chapter titled “Adaptive Strategies in Online Marketing Using Machine Learning Techniques” in the book “Digital Transformation Initiatives for Agile Marketing” – IGI global publishers(2024) {DOI: 10.4018/979-8-3693-4466-8.ch004} 3. Dr. G. Murugan published a book chapter titled “Emerging startups in the Evolving Industry Landscape by Empowering Entrepreneur Growth: Agile Marketing Practice” in the book “Digital Transformation Initiatives for Agile Marketing” – IGI global publishers(2024) {DOI: 10.4018/979-8-3693-4466-8.ch017} 4. Dr. S. Kiruba published a book chapter titled “Integrating AI and Machine Learning in Omnichannel Marketing for Superior Customer Experience” in the book “Digital Transformation Initiatives for Agile Marketing” – IGI global publishers(2024) {DOI: 10.4018/979-8-3693-4466-8.ch005} <p>Patents</p> <ol style="list-style-type: none"> 1. Dr. N.R. Rajagopalan published a patent titled “Nanocomposite Engineering: Revolutionary Synthesis Methods for MgO-Carbon-Based Capacitive Electrodes” in the “Official Journal of the Patent Office – Journal issue 42/2024 - ” – Application No.202431076904 , dated 18-10-2024 2. Dr. S.M. Prakash published a patent titled “Real-time battery discharge prediction for
