	Teaching – Learning and Evaluation	9
3.	Action Taken Report (Sample)	12

Student Satisfaction Survey is conducted every year to know about the students' perception about Teaching – Learning and Evaluation, which will help to upgrade the quality of process followed in our institution.

Students are randomly selected for the survey by system. Only that particular student who was chosen randomly will get the Questionnaire. The students will remain anonymous throughout the survey process.

In SSS there would be twenty one questions all over and out of which, twenty questions would be objective type and one question provides opportunity for the students to give their observations / suggestions in a descriptive way to improve the overall teaching – learning experience in our institution.

The questionnaire covers a wide array of skills involved in the teaching process which vary from teaching skills of the teacher, technical knowledge, effectiveness of communication, preparedness, doubt clearing skills and use of ICT, to overall approach to the educational process like motivation, interpersonal relationships, feedback, dynamically modifying teaching methodology to help weak students etc..

The Questionnaire is based on the likert scale on a graded marking system. The students' response is based on a scale 0 to 4. Highest positive response is rated as 4 and the lowest negative response is rated as 0. This removes the binary forced approach and provides a more comfortable wider range for students to register their opinion.

The email ids of all the students in the institution currently pursuing the degree was acquired for all the UG and PG programme. This was around 5600in number. Out of this entire set a subset of around 2000 students was chosen randomly by the system anonymously to maintain objectivity in the entire process. Questionnaire were sent in Google forms through the link https://forms.gle/xHaq7tJHSfXwFLLG7to that mail ids selected randomly. This fetched response from 1240 students was recorded and performance of stakeholders were analyzed with regards to the feedback provided.

End analysis of the survey is done using software which will aggregate the response and generate the score of student satisfaction survey. A robust mechanism is followed by this software so as to follow a holistic unambiguous approach towards quantifying the student feedback in a comprehensively inferable manner.

Inference from the feedback is analyzed thoroughly by the appellate authorities and corrective measures are implemented.

Questionnaire

National Assessment and Accreditation Council (NAAC) Student Satisfaction Survey Key Indicator - 2.7.1

Under Criterion II of Teaching - Learning and Evaluation

Guidelines for Students

St.Joseph's College of Engineering is conducting a Student Satisfaction Survey regarding Teaching – Learning and Evaluation, which will help to upgrade the quality in higher education. A student will have to respond to all the questions given in the following format with her/his sincere effort and thought. Her/his identity will not be revealed.

A) Pleas	A) Please confirm this is the first and only time you answer this survey.							
	a)	Yes		b)No		כ		
B) Age:			C) College	Name:				
D) Gend	er:	a) Fem	nale 🗀b)M	ale		c)Tr	ansgender	
E) What	degre	ee progi	am are you	pursuingn	ow?			
a) Bac	helor's	□ b)N	Master's			c)MPhil	
d)Doc	torate	□ e)C	Other ()		
F) What subject area are you currentlypursuing?								
a) Arts	;	b)(Commerce			c)Science	
d)Prof	essiona	l 🗆	e)Oth	er:()	

Instructions to fill the questionnaire

- All questions should be compulsorily attempted.
- Each question has five responses, choose the most appropriateone.
- The response to the qualitative question no. 21 is student's opportunity to give suggestions or improvements; she/he can also mention weaknesses of the institute here. (Kindly restrict your response to teaching learning processonly)

Student Satisfaction Survey on Teaching Learning Process

1.	How much of the $4-85$ to 100%	syllabus was cover 3 – 70 to84%	ed in the class? 2 – 55 to69%	1–30 to 54%	0 –Below 30%

Summary of the Survey

Programme wise student participation in the survey

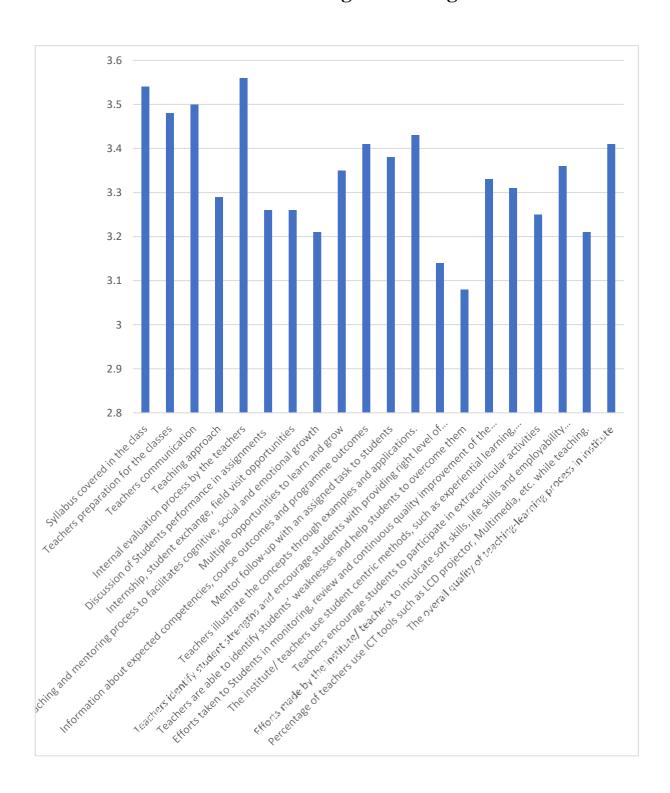

Sl.No	Name of the Programme	No .of. Students Participated
1.	B.E - Civil Engineering	22
2.	B.E – Computer Science and Engineering	180
3.	B.E – Electronic and Communication Engineering	175
4.	B.E – Electrical and Electronic Engineering	148
5.	B.E – Electronic and Instrumentation Engineering	141
6.	B.E – Instrumentation and Control Engineering	48
7.	B.E – Mechanical Engineering	149
8.	B.Tech – Bio Technology	70
9.	B.Tech – Chemical Engineering	53
10.	B.Tech – Information Technology	176
11.	M.E – Power Electronic and Drives	1
12.	M.E – Computer Science and Engineering	1
13.	M.E – Applied Electronic	1
14.	M.E – Manufacturing Engineering	1
15.	M.Tech – Bio Technology	1
16.	Master of Business Administration	46
17.	MBA – Integrated (5 Years)	27

Teaching – Learning and Evaluation

Sl.No	Description	Average
1	Syllabus covered in the class	3.54
2	Teachers preparation for the classes	3.48
3	Teachers communication	3.50
4	Teaching approach	3.29
5	Internal evaluation process by the teachers	3.56
6	Discussion of Students performance in assignments	3.26
7	Internship, student exchange, field visit opportunities	3.26
8	Teaching and mentoring process to facilitates cognitive, social and emotional growth	3.21
9	Multiple opportunities to learn and grow	3.35
10	Information about expected competencies, course outcomes and programme outcomes	3.41
11	Mentor follow-up with an assigned task to students	3.38
12	Teachers illustrate the concepts through examples and applications.	3.43
13	Teachers identify student strengths and encourage students with providing right level of challenges	3.14
14	Teachers are able to identify students' weaknesses and help students to overcome them	3.08
15	Efforts taken to Students in monitoring, review and continuous quality improvement of the teaching learning process.	3.33

16	The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem-solving methodologies for enhancing learning experiences.	3.31
17	Teachers encourage students to participate in extracurricular activities	3.25
18	Efforts made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make students ready for the world of work	3.36
19	Percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.	3.21
20	The overall quality of teaching-learning process in institute	3.41

Student's Feedback - Teaching - Learning and Evaluation

Action Taken Report (Sample)

Sl.No	Feedback/Verbatim Response	Action Taken
1	The laboratory classes which were taken in	Extra Lab sessions were conducted in
1	·	
	the online mode can be taught once again in	offline mode and the experiments that
	the offline mode when the college reopens	were taught during online lab classes
		were redone with laboratory equipment
		as deemed necessary.
2	Every semester include programming	New courses on programming languages
	language	and newer computing technologies
		included in the syllabus for the
		autonomous regulations
3	Can be more practical. Can have more	More practical oriented real world
	application related examples	examples are given about the
		implementation of knowledge gained in
		each subject. This is being done on a
		regular basis by faculty during theory as
		well as lab classes.
4	Breaks between each periods , maximum	The students now attend half of their
	duration of 40 minutes for a period not more	classes in online and half in offline mode
	than that in online mode	every week. The duration of each period
		is 40 mins.
5	Group discussion within the colleagues about	Students are asked to take seminars and
	the subject should be encouraged	interact with their peers regarding the
		semester subjects which help them to
		improve their knowledge by
		collaborative sharing.
