### FEEDBACK ANALYSIS:

In order to evaluate the efficiency of the learning process the students are requested to submit an online feedback form in the format of a questionnaire. The questionnaire covers all the key features like course content & organization, interactive participation, learning environment & teaching methods, learning resource and quality delivery and assessment. Nearly 52 % of students were satisfied with the course content. The interactive involvement of the students was raised to 55% due to the collaboration with industry experts in the form of guest lecture. Around 90% of the students were satisfied with the course material delivered. Requisition process to be improved aiding raw material procurement for project work from maintenance department in order to increase the learning environment from 56%. Facilities provided in the department laboratory attracted majority of the students. Some of the students have proposed for gaps in between the assessment schedule. Totally 831 students gave their feedback on curriculum for the academic Year 2023-2024.
