ACADEMIC YEAR 2024-2025

Student's Feedback

Feedback on the curriculum was collected from a total of 170 students using a structured questionnaire covering five major aspects: Course Content and Organization, Interactive Participation, Learning Environment and Teaching Methods, Learning Resource, and Quality of delivery and assessment.

Learning Resources, and Quality of Delivery and Assessment. A combined 87% of students rated this aspect as Excellent, indicating that the course content is well-structured, appropriate to the academic level, and effectively aligned with the program outcomes. With 89% rating it Excellent, students strongly feel that teacher-student interactions are active, meaningful, and supportive of better learning. This area received 90% Excellent ratings, suggesting that the teaching strategies, classroom environment, and instructional practices are highly effective and conducive to learning. A total of 85% of students rated the availability and adequacy of learning resources as Excellent. Students agreed that library resources and supporting materials sufficiently meet their academic requirements. This dimension received an Excellent rating from 86% of respondents, showing strong student satisfaction with teaching quality, clarity of instruction, and fairness of internal assessments. Overall, the feedback indicates high levels of satisfaction across all key areas of the curriculum. A few students suggested that including certificate courses with hands-on training as part of the curriculum would further enhance practical exposure and skill development.

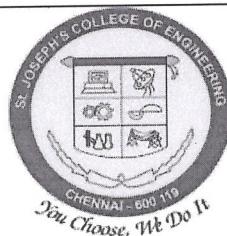

Feedback analysis report

- ❖ The analysis of the students' feedback indicates that they are satisfied with the curriculum structure.
- ❖ Students suggested that uploading scanned copies of reference books would help them understand the subjects better.

TEACHER'S FEEDBACK ON CURRICULUM - ANALYSIS

TEACHERS FEEDBACK ON CURRICULUM

The College has made it a practice to conduct all faculty meeting, once in the starting of the semester, where the ways and means of enhancing the curriculum, academic discipline, Teaching Learning process and Research and Extension activities are discussed. During such meetings, the individual faculty members express their honest opinion on the curriculum; research and extension activities and the same would be debated and discussed. The appropriate suggestions are put forward to the respective councils for implementations. The faculty members get representations in the Board of Studies, Department Advisory Committee and Academic Council, where the staff members are getting ample opportunities to give feedback, on both curriculum and teaching learning process. Based on the feedback obtained, various industrial visits, guest lectures, value added courses and student's workshops are organized to fill the gap in the curriculum.

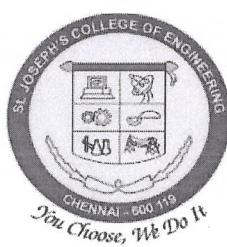

Feedback analysis report:

- The analysis of the teachers' feedback shows that they are highly satisfied with the overall curriculum framework.
- They have suggested that additional training is necessary to better equip students with industry-relevant skills.
- They recommended arranging Invited Talks, in-plant training, and internship opportunities to bridge the curriculum-industry gap.
