REPORT

ACADEMIC YEAR 2016-2017

S.No.	Stakeholder	Feedback	Actions Taken
1	Student	Smart class rooms can be used for teaching some subjects.	Smart class rooms, video conferencing was made effective with the help of ICT academy.
2	Teacher	Faculty development programmes may be conducted for improving the teaching skills of staff members.	3 Days faculty development programme has been conducted on IIoT and automation to equip staff members with the knowledge on RTOS, PLC programming, HMI drives and control.
3	Alumni	Students should be equipped with new trends in robotics and IOT technology.	Emsol systems have conducted the value added course on programming and implementation of Raspberrypi applicable to robotics.
4	Employers	Equip students with advanced technology for improving their technical knowledge.	Value added courses were conducted on Wireless Sensor Networks and Internet of Things, Pragmatic Engineer Level 2.0, E-BOX Training in C Programming.
5	Parents	Focus more on research-based teaching. Learning strategies to expose the students the latest developments in research.	Departments organized talks by industrial experts and alumni. Industrial and research exposure in various research field were provided.

FEEDBACK ANALYSIS:

Our college has obtained feedback on curriculum from students through questionnaire which contains the following major aspects such as Course content & Organization, Interactive participation, learning environment & teaching methods, Learning resource and Quality of delivery and assessment. Totally 564 students gave their feedback on curriculum for the academic year 2016-2017. From the analysis of the students' feedback it is revealed that they are not satisfied with the curriculum framework.

They requested for more to be taught in different perspective of applications so that they can come up with new innovations. 82% students Apart from this, they say that they received supports involvement through seminars, student's innovations for the further development of curriculum. 71% are satisfied with the various guest lectures and internship they went as they get good exposure out of it. 80% students are happy with the online portal notes and the assignment work allotted to them though which they develop more practical solution. Other than the 61% of the students many are not happy with the various assessments. Enrolment in various online courses should be encouraged. Motivation and encouragement received towards higher studies the suggestions given by them related to specific subjects were noted for further action

FEEDBACK ANALYSIS:

- Teachers felt they needed exposure to broaden their research perspectives in newer and industrially vital focus areas by acquiring knowledge on new techniques and concepts. Hands on training sessions and workshops were organised to train the staff and research scholars to handle and operate high end sophisticated new equipment. Organised refresher courses, orientation courses, faculty improvement programmes, workshops, etc to enable the faculty to update their knowledge. Staff members were also encouraged to participate in training sessions conducted by other institutions.

ACADEMIC YEAR: 2016-2017

	FEEDBACK	ACTION TAKEN
1	Improve research facilities.	Institute has allocated funds for research and development.
2	Assign research mentors to the students.	Research mentors have been assigned to the students for carrying out projects and publishing papers in national and international conferences.
3	Try to obtain research funded projects.	Initiative has been taken to submit proposals in various agencies like DRDO, DST, SERB, etc.
4	Increase placement eligible students count.	Upto three arrear students are closely monitored by respective mentors. Regular meetings are organized with the students by mentors for bridging the gap in teaching learning process.
