Student's Feedback

The college has obtained feedback on curriculum from students through questionnaire which contains the following major aspects such as Course content & Organization, Interactive participation, learning environment & teaching methods, Learning resource and Quality of delivery and assessment. Totally 290 students gave their feedback on curriculum for the academic year 2023-2024 . 85% of the student's population agreed that the allocation of course content is appropriate in relation to the level of course content is very much appropriate to the programme. Majority of the students strongly agreed that the interaction by teachers with students are more feasible and reliable. Around 86% of the students agreed that they are equipped with necessary teaching methods required for their programme. It is observed that 83 % of the students agreed that the provision for learning resource in library was adequate and appropriate with their respective field of specialization areas. The feedback revealed that 83% of them are strongly agreed about the quality of delivery and the internal assessment for the specified programme. Some students are suggested that it would be helpful if the certification course with hands on training can be included as a part of the curriculum.

Feedback analysis report

- Feedback from students indicates their satisfaction with the curriculum that has been developed.
- Uploading scanned copies of reference books can help students grasp the subjects more thoroughly.

TEACHER'S FEEDBACK ON CURRICULUM - ANALYSIS

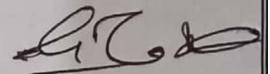

TEACHERS FEEDBACK ON CURRICULUM

The College has made it a practice to conduct all faculty meeting, once in the starting of the semester, where the ways and means of enhancing the curriculum, academic discipline, Teaching Learning process and Research and Extension activities are discussed. During such meetings, the individual faculty members express their honest opinion on the curriculum; research and extension activities and the same would be debated and discussed. The appropriate suggestions are put forward to the respective councils for implementations. The faculty members get representations in the Board of Studies, Department Advisory Committee and Academic Council, where the staff members are getting ample opportunities to give feedback, on both curriculum and teaching learning process. Based on the feedback

obtained, various industrial visits, guest lectures, value added courses and student's workshops are organized to fill the gap in the curriculum.

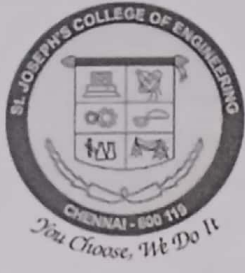

Feedback analysis report:

- Feedback from teachers reveals contentment with the curriculum structure.
- There is a need for additional training to align students' skills with industrial requirements.
- Arranging guest lectures, practical training, and internships can help address curriculum deficiencies.

ACADEMIC YEAR 2023-2024

Feedback

- Encouraging more frequent and meaningful interactions between faculty and students can improve academic performance and satisfaction.
- Maintaining the current systems for informing students about their progress and attendance will help keep them accountable.
- Improving students' soft skills, such as time management and critical thinking, is crucial for their overall development.
