

A glowing lightbulb with a circuit board overlay. The lightbulb is the central focus, emitting a warm, golden light. The circuit board is a faint, white line drawing that overlays the background and the lightbulb. The background is a soft, light blue gradient. The lightbulb's filament is visible, and the glass is slightly textured. The circuit board has several nodes and lines, suggesting a network or industrial process. The overall composition is clean and modern, with a focus on technology and industry.
